

# **STORY OF THE DAY**

## **BLOWN AWAY**

by: Rob Biddulph  
(Click on title for book video)

### **STORY EXTENSION IDEAS**

- Encourage your child to listen carefully to the story, look at the illustrations and listen to/identify the rhyming words.
- Make kite sandwiched using fillings of your child's choice and then cut diagonally to create small triangles and arrange in a kite shape. Cute string cheese into thin strips for the tail and decorate with triangles/pieces of tomato/carrot for the ribbon bows.
- Make your own [HOMEMADE KITE](#) -this link has some great ideas
- Provide a range of junk modelling equipment and have your child create a boat to get the animals back home. Ask questions before, during and after you build. What materials should we use? How do we join them together? How can we make it move? Provide a large water tray to test the model to see if it floats

### **IDEA OF THE DAY**

#### **SINK OR FLOAT SCIENCE FOR KIDS**
